

# HR | BIZZ vs. THE PEO's

The PEO model is based on bundling. The PEO espouses an all or nothing premise. When working with a PEO, your company won't have the option to select the services you really want or need. Essentially, that means that employers are paying for services that don't fit their company.

- PEO's create an arrangement that can be difficult to break.
- PEO's consultants are rarely highly trained and experienced Human Capital Experts
- The PEO model is based on UPSELLING

## HR | BIZZ: Everything starts with relationships!

Our firm can offer economy of scale, discounts, excellent individualized customer services, and significant and large returns on your investments.

### OUR MODEL

We formulate strategic partnerships with high quality, established Brokers and Payroll Administrators.
